

ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY

Our vision

Becoming the Best consumer product manufacturer in the country that also CARES through :

- World Class health and Safety performance.
- Environmental performance that preserves and promote nature and social values.

Our Mission

To develop a culture that produces world class health and safety performance because Colgate cares and your Family cares.

To continuously improve environmental performance and measurably contribute to Colgate's reputation and growth.

Our principles

- We will value Colgate people by putting safety first.
- We will comply with all applicable laws.
- Each of us responsible and accountable for the safe behavior of ourselves and others and for improving our environmental performance everyone is empowered to intervene.
- Accidents, injuries and environmental incidents can be prevented.
- Management is responsible for providing visible leadership on EOHS performance.
- All Colgate people must have the knowledge, skills, tools, and abilities to work safely and to promote good environmental practices.
- We will integrate EOHS policies, standards and programs into our business decisions and transactions.
- EOHS performance is a business issue, not just a manufacturing issue.
- We will minimize our risks from products and operations.
- We will promote open communication with employees and seek an active and productive partnership with the communities in which we operate.
